NOTE: Most of the text used to accompany the pictures in this guide are copied from the original captions.

EuropeanaPhotography (European ancient photographic vintage repositories of digitized pictures of historical quality) is a EU-funded project to create a partnership with prestigious photographic collections from archives, public libraries and museums in order to conserve and make accessible online 100 years of photography, from the first example of images from Fox Talbot and Daguerre to the beginning of the Second World War.

TopFoto is one of the 19 partners, representing 13 countries in Europe, in the Europeana Photography Project and has been chosen to provide 60,000 of the 535,705 images that will be delivered to the Europeana site by 2015.
